

HARDWORKING NEW YORKERS SIMPLY CAN NO LONGER AFFORD REP. MALLIOTAKIS' BACKWARD-LOOKING AGENDA

Rep. Malliotakis has repeatedly proven herself a corporate shill and MAGA extremist, firmly opposed to lowering costs for working families, womens' access to reproductive care, and cracking down on greedy corporations. But don't just take our word for it. Malliotakis' record speaks for itself.

☑ AGAINST LOWERING RX DRUG COSTS

Rep. Malliotakis – who personally invests in Pfizer and Johnson and Johnson¹ – has taken thousands from drug companies² – and repeatedly votes against lowering the price of prescription drugs.³ It's bad enough that New Yorkers are having to struggle with the skyrocketing cost of prescription drugs. But her constituents also face Malliotakis having a vested interest in continuing to protect industry profits at their expense.

☑ AGAINST LOWERING FOOD PRICES

The cost of groceries may be at all-time highs⁴ in New York City, but if Congresswoman Malliotakis has her way, they'll be even higher. Not only has Mallotakis refused to hold greedy corporations accountable for price gouging consumers,⁵ but she voted against bipartisan legislation to bring down prices and help get food on shelves faster.⁶ She even voted against helping get more baby formula on shelves.⁷

☑ AGAINST LOWERING ENERGY COSTS

Rep. Malliotakis – who invests personally in Exxon⁸ – has taken more than \$115,000 from oil and gas companies⁹ and voted against stopping price gouging by oil companies,¹⁰ allowing greedy corporations to rake in tens of billions in record profits.¹¹ She also voted against historic investments in clean energy production¹² that would save the average household [\\$1,800 per year](#) on energy bills.

☑ **SIDES WITH WEALTHY LANDLORDS**

While New Yorkers struggle to pay rent and keep a roof over their heads, America's 61 billionaire landlords have increased their wealth by \$24.4 billion¹³ since the pandemic's start. Instead of advocating for her constituents, Malliotakis stands firmly on the side of wealthy landlords and real estate lobbyists – which contribute nearly \$583,000¹⁴ to her campaign – in vehemently opposing extending eviction protections for tenants during emergencies.¹⁵

☑ **CAREER ANTI-CHOICE POLITICIAN**

Rep. Malliotakis is a career anti-choice politician who has voted against codifying Roe while serving in the [NY State Assembly](#)¹⁶ and [Congress](#)¹⁷, including after [SCOTUS' devastating Roe reversal destroyed years of progress in women's rights](#). Malliotakis even voted against legislation¹⁸ protecting women's constitutional right to travel across state lines to receive the care they need amid extreme new laws from states that threaten to arrest doctors and punish women and those who help them. Not stopping at abortion, Malliotakis also voted against legislation to guarantee the right to obtain and use birth control.¹⁹
